### **Forward-looking Statements:**

In addition to historical information, this news release may contain forward-looking statements relating to Intelligent Systems Corporation and its subsidiary and affiliated companies. These statements include all statements that are not statements of historical fact regarding the intent, belief or expectations of Intelligent Systems Corporation and its management with respect to, among other things, results of operations, product plans, and financial condition. The words "may," "will," "anticipate," "believe," "intend," "expect," "estimate," "plan," "strategy" and similar expressions are intended to identify forward-looking statements. Prospective investors are cautioned that any such forward-looking statements are not guarantees of future performance and involve risks and uncertainties and that actual results may differ materially from those contemplated by such forward-looking statements. All forward-looking statements are based upon information available to Intelligent Systems Corporation on the date this release was submitted. The Company does not undertake to update or revise any forward-looking statements whether as a result of new developments or otherwise, except as required by law. Among the factors that could cause actual results to differ materially from those indicated by such forward-looking statements are instability in the financial markets, delays in product development, undetected software errors, competitive pressures, changes in customers' requirements or financial condition, market acceptance of products and services, changes in the performance, financial condition or valuation of affiliate companies, the risks associated with investments in privately-held early stage companies and further declines in general economic and financial market conditions, particularly those that cause businesses to delay or cancel purchase decisions.
